Notes for JULIA REBEKAH CUTCHIN:

She was a graduate of Leigh Memorial Hospital School of Nursing.

She was a member of D.A.R., United Daughters of the Confederacy, and the Association for the Prevention of Virginia Antiquities.

She donated a large amount of money to help build the Benns Church, which lies across the street from St. Lukes Church and Cemetery in Smithfield, Isle of Wight Co., VA.

She was an Genealogist and she was the first person to put a Cutchin Family Tree and Book together.

Willis Cutchin II said that the property in Smithfield, Isle of Wight Co., has to remain in the Edwards Family because of an Ancestral Will, that stated that the property could never be sold outside the Edwards Family and any property purchased or bought by the person that has possession of the original farm. The original homestead farm was across the street from Julia's. The original house was a colonial with columns in front, a spiral staircase, and a chandelier. But the house was not used since 1920s and was torn down in the late 1980s. Also on the property there is a well, that during the civil war, the southern army filled with live ammo, powder, and weapons when retreating from the union army. This has been researched by the University of VA and can never be opened because of the live ammo can still be explosive. Numerous artifacts have been found on the property from the civil war. There are two man made lakes, which were built in the 1960s. There is over 2500 acres in the farms. All the artifacts that Julia had in her family museum which used to be the old farm kitchen behind the house where donated to state museums or taken by the Edward Family. There was even a hand carved cedar leg carved by one of the Partin family soldiers for himself while he was recuperating in the Hospital from his mortar wound. Out of the 2500 acres one quarter is wooded.
